

Data Low Black Travertine

MAAMI
HOME

The main inspiration of the coffee table DATA LOW derived from the shape of an old stamp. DATA LOW surprise us due to the irregularity and excavation holes of Travertine marble. The DATA LOW table is complemented with a glass top that reveals all the beauty of the stone. It can be combined with DATA TALL table.

Name Data Low Black Travertine

Category coffee table

Designer Fábio Teixeira

Year 2019

Materials & finishing Black travertine with open pore, honed matte finish and extra clear tempered glass.

Production details This table is made in two parts: top and base. Both are machined on a 5-axis milling machine and then finished by hand.
