HOME

*VIÇOSA is a sculptural basin that captures the quiet elegance of its namesake village through fluid lines and refined restraint. In this version, a slender metal frame supports a carved Estremoz marble basin, reducing material mass while highlighting the purity of its silhouette. The interplay between stone and metal adds contrast and structural clarity, resulting in a balanced, contemporary solution for bathroom spaces that seek serenity without excess. Minimalist in form yet rich in detail, Viçosa transforms the act of bathing into a tranquil design ritual.*
