

VIÇOSA MARBLE

MAAMI
HOME

VIÇOSA Marble is a full-marbled evolution of the original design, now sculpted entirely from Gris Alvito stone. This version refines the balance between functionality and expression through the interplay of textures: all water-contact surfaces are softly honed for smooth drainage and ease of use, while the outer faces are delicately sandblasted, offering a subtle contrast that evokes raw elegance. With its seamless marble form, this model emerges as a sculptural monolith—a centerpiece where quiet strength meets refined tactile nuance. In its minimalist design and rich material expression, Viçosa Marble brings a timeless serenity to modern bath spaces.

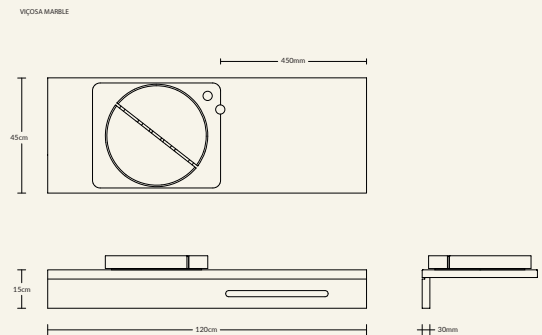

Name Viçosa Marble
Category Bath
Designer Fábio Teixeira
Year 2025

Materials & finishing Solid Gris Alvito marble, quarried in Portugal and selected for its cool grey tone with discreet veining.

Production details Entire piece CNC-carved from a single Gris Alvito block, then hand-finished to define the dual textures with precision. Interior curves are softened manually to ensure ergonomic use and seamless water drainage.

Cleaning instructions Wipe with a damp cloth, or just a soft dry cloth. Do not use any type of detergent that can mark the stone and the wood.
